

In our garden of knowledge,
their future blooms.

Enabling the young to grow confident.

Nestled in the heart of Kurnool, a town with a rich history, the International Delhi Public School (IDPS) has bloomed as a dynamic center of global education. IDPS has an environment that transcends conventional learning settings with facilities that complement the best of national and international schooling. Here, we forge a distinct path towards success, cultivating a mindset where our students arise to be the ‘leaders of a new world’. As an institution, we pledge to shape confident future leaders - who are instilled with the knowledge, confidence, and awareness to contribute to the progress of the nation.

Vision:
The school aims to be an innovative and inclusive environment, where every student can discover their potential and grow to be an achiever.

Mission:
To provide a holistic educational experience that goes beyond traditional boundaries. We will drive knowledge and character in an atmosphere that encourages intellectuality, curiosity, creativity, and a passion for learning.

Landscape designed for learning.

Set on an 11-acre land across 1,70,000 sq. ft., International Delhi Public School in Kurnool is an initiative by KJR Educational Society rising as a beacon of educational excellence. The school believes in harnessing the immense learning potential of children, recognizing their vigour and energy as catalysts of growth. With a commitment to provide an exceptional environment, the eco-friendly campus is laden with world-class facilities for academics, sports, and extracurricular activities. We understand that children are full of untapped potential, whose energy is waiting to be channelled into talent and victory. The expansive campus and state-of-the-art sporting facilities serve as the ideal backdrop for students to realize their dreams and unlock their fullest potential.

“

At IDPS, we stand not at the crossroads of education, but in the face of change. We envision a future where learning surpasses rote memorization, where critical-thinking sparks creativity, and where cultural awareness unlocks a world of understanding. Education is a weapon that empowers us to navigate the complexities of our world, to understand diverse perspectives and to become agents of positive change. If you are seeking an environment for your child to grow with a set of values, welcome to International Delhi Public School - the gateway to a world of endless possibilities.”

Values that are a pedestal of excellence!

At IDPS, we believe in imparting skills that will propel life. Our holistic pedagogy goes beyond academics, instilling values that will prepare students for success in this competitive world. IDPS shapes well-rounded individuals, equipping them for a fulfilling journey ahead. Skills for life, at IDPS, are designed to redefine education.

Stories of comfort, commuting, and bonding.

The journey from home to school and back is not just about commuting, but a time of bonding, the memories of which will stay on for a lifetime for the youngsters. While that's the long-term impact of the bubbly bus journey, the priority is on the well-being of the students during their daily commute. Our transport system ensures a safe and comfortable journey, assuring parents the peace-of-mind they need. With our focus always on security, children enjoy a comfortable and cozy journey, which makes every trip pleasant. At IDPS, we go the extra mile to ensure that the journey is as reassuring for parents, as it is delightful for our students.

Nourishing the mind, energising the body.

A regular day at IDPS is one where children immerse themselves in its enriching atmosphere. Here, the day starts with a sense of spiritual unity through prayers, where the entire school assembles to hum the morning hymns in unison. Meal-time isn't just about food and nutrition. It's also a time when children partake in conversations that spark intellectual curiosity, leading to lively gatherings at the spacious dining area. Students delight in a wholesome breakfast made at the centralized cooking facility overseen by a leading hospitality service. This not only alleviates parental concerns but also guarantees hygienic and invigorating meals, promoting a sense of comfort and overall well-being.

Love for learning starts early!

The Pre-Primary curriculum of IDPS is focused on instilling a love for learning. Teachers here focus on activity-oriented methods, which are impactful in retention. The tenets of teaching are rooted in experimentation and enlightenment, focusing on strengthening cognitive, physical, social, and emotional competencies through the application of visual aids. Children are part of a nurturing environment, where playing, learning and growth converge to lay the foundation for a lifetime of academic, social, and emotional achievements. Teachers use digital resources to foster the learning atmosphere. There is also the exclusive Activity Studio with learning corners that add to the educational journey, ensuring that children not only understand but also enjoy the process of learning

Cultivating critical thinkers for the world.

IDPS applies globally-recognized approaches to primary education that goes on cultivating confident, independent, and positive-thinking individuals. Our dynamic curriculum encourages children to explore and enhance their thinking. Using thematic and creative approaches, our teachers guide students to a deeper understanding of essential learning concepts, promoting inquiry-based learning. By encouraging questions and rousing curiosity, children prepare for academic and personal challenges. As they graduate from Primary School, they step out well-equipped with knowledge, understanding of the subject, and resilience to tackle any future endeavours. IDPS sets the stage for a lifetime of learning and success during these formative years.

Teaching that makes a happy impact

For learning to be effective, the ones imparting it need to have an approach that engages children in the process of learning. That said, IDPS has handpicked-faculty from eminent institutions who bring subject-knowledge, teaching-expertise, and innovation to the entire process of learning. The school has certified professionals and thought-leaders from the realm of academics, who create a dynamic environment. Equipped with tools and modern teaching techniques in e-classrooms, teachers convey the subject with essence and efficiency. More so, their commitment to excellence fosters a unique, immersive learning experience for students.

Learning that steps beyond the classroom.

Education at IDPS rises above classrooms, as children are part of educational tours and field trips. Such hands-on experiences enhance subject retention, leading to creative thinking. Integrated into our academic plan, these activities offer real-world connections to classroom topics. Students share their experiences through assignments and presentations, developing communication skills. Beyond academics, these excursions instil interpersonal values like sharing, caring, teamwork, and collaboration. So, at IDPS, learning outside the classroom is given great importance, because what the real world teaches cannot be learned sitting on the benches of the classrooms.

Building confidence for the further climb.

The middle years at IDPS are the ladder to the next phase of the academic journey, that is, the senior school. At this stage, teachers set the pedestal for academic excellence of students' personal growth. With the focus being on nurturing personality skills that encompass activities like presentation and public-speaking skills, teachers are intent on understanding individual strengths. A personalized approach guides students to excel academically and discover their true potential. Exposure to core subjects during these years enlightens students on the ideal path for success, for senior secondary education. IDPS is dedicated to shaping confident individuals and preparing them for future challenges.

Books and bytes that lead to brilliance.

In the ever-evolving landscape of education, IDPS recognizes the supreme importance of reading, writing, and resource accessibility for success. Which is why, our library is not just for reading and research, but is also a place that fosters a genuine love for literature. Our bank of books comprises every kind of reading material like periodicals, magazines, encyclopaedia, newspapers, and research papers. Also, the ICT lab is the gateway to the world of computing and web sphere that elevate educational experience. That's because, our advanced computing facility propels students into the world of contemporary information technology, cultivating essential digital literacy skills.

Shaping tomorrow's innovators.

As the world continues to evolve, students must understand and embrace the changing dynamics in technology and science. By providing them with the resources and support to explore and engage in these fields, IDPS aims to empower its students to be future-ready and contributing members of society. To support innovative learning, our school has established a curriculum that not only focuses on traditional subjects like science, math, and environmental studies but also offers specialized labs for robotics and project development. These labs provide students with hands-on experience and the opportunity to apply their theoretical knowledge in a practical setting. The teachers here actively participate in the labs, providing guidance and support to students as they explore and learn.

Focusing on a future of competition.

Learning at IDPS is a process that involves discussions, investigations, problem-solving, project work, periodic tests, and interactive sessions. Our scientifically devised assessment system analyzes academic performance at a micro level, allowing for corrective measures.

That's because for senior school students, competitive exams play a pivotal role in shaping their academic trajectory. These assessments evaluate knowledge, critical-thinking, and problem-solving skills, preparing them for challenges and also for personal and academic growth. The teachers of senior school of IDPS groom students for academic focus, guiding them towards long-term success in a stress-free environment.

Our teaching faculty employ a proactive methodology, encouraging active participation and personalized grooming based on individual skills.

Bringing out talent to shine brighter.

Students of IDPS have ample time in their academic schedules, so that they can hone their creative talent and pursue activities of their interest. The school has drawn out several activities to identify individual talents in students and bring them to the fore. Teachers observe their skills and interests and are enrolled in Arts, Science, Literary, Cultural, and Environmental Clubs. The school has exponents in training the students in their chosen field of interest. Students with immense talent are encouraged, and additional support is given by inviting professional trainers. A huge auditorium has been designed within the campus that becomes a venue to display the student's talent during internal and external fests.

Setting the standards of sportive excellence.

The commitment of IDPS to children extends beyond academics, as we meticulously plan facilities and train to nurture sporting excellence. Reason why IDPS recognizes the dominant importance of sports and has facilitated the campus with a sporting infrastructure that's designed to international standards. This holistic approach ensures students' physical development and overall well-being, reinforcing our dedication to a comprehensive education. Our belief is that, if a child has to become a champion tomorrow, what's needed is the right sporting infrastructure and training. Moreover, IDPS excels with premier outdoor sporting facilities for football and cricket, nurturing athletic prowess and competitive spirit

Aligning mind, body, spirit in harmony!

The focus on holistic development is evident in the range of physical activities offered at IDPS, which not only promote physical fitness but also mental well-being. One of the standout features of the campus is the massive swimming pool, which has demarcated zones for beginners, swimmers, and professionals. This allows for tailored training and development, catering to students at all skill levels. In addition to swimming, students are also given training in lifesaving skills, yoga, meditation, and martial arts, to keep them mentally and physically fit. The overall integrated education provided here reflects the school's commitment to nurturing students' before they set into the competitive world of learning.

They smile, they play, they learn.

IDPS isn't just a school, but a garden of knowledge. Here, children are buds who are nurtured with love, learning, and love for learning. After nurturing, they bloom as happy flowers, who will go on to spread their fragrance of knowledge and enlightenment in the world. So come, make your child a part of the garden of knowledge.
